

Elevating Luxury with Excellence & Sustainability

TRUSTED BY THE WORLD'S FINEST HOTELS

Crafted in Egypt. Designed for Hospitality.

For over 30 years, KTC Hospitality has been a trusted name in the global hospitality industry, delivering premium textile solutions from the heart of Egypt. Today, we proudly service over 50,000 hotel rooms annually, supplying high-performance linens tailored to the standards of leading hotels, resorts, and cruise lines.

As part of the Kazareen Textile Group (KTG UK), we operate within a fully integrated supply chain—controlling every stage from yarn spinning and weaving to dyeing, cutting, stitching, and finishing. This structure ensures exceptional quality, consistency, and flexibility, whether for large-scale rollouts or bespoke designs.

A Commitment to Excellence.

Our product collections are carefully engineered to blend elegance with durability. From bed and bath linens to duvets, pillows, bathrobes, and food & beverage textiles, each item is designed to elevate guest comfort while withstanding the demands of daily hotel use.

Driven by innovation and sustainability, we continually invest in advanced technologies and responsible manufacturing practices. At KTC Hospitality, we don't just supply textiles—we build lasting partnerships, helping hospitality brands around the world enhance the guest experience, one room at a time.

Founded in 1991 in Cairo, KTC Hospitality began with a clear mission: to craft premium linen products using the finest Egyptian cotton, and to serve the growing needs of the hospitality industry with care, precision, and consistency.

What began as a regional operation has evolved into a globally trusted manufacturer and supplier, partnering with world-class hotels, resorts, cruise lines, and procurement firms across five continents.

Our strength lies not only in our product quality but in our ability to deliver at scale without compromising customization or attention to detail.

As part of the Kazareen Textile Group UK (KTG UK), a London-based textile and garment supply chain group—we operate within a vertically integrated ecosystem. This includes state-of-the-art manufacturing in Egypt and strategic production partnerships across India, Bangladesh, Vietnam, and China, allowing us to respond efficiently to large-scale and specialized orders alike.

Strategic Global Distribution.

With sales, warehousing, and customer service hubs located in the UK, France, Germany, USA, Canada, Dubai, Riyadh, and Shanghai, KTC is strategically positioned to serve international hospitality brands with speed and reliability.

Our Egyptian manufacturing base benefits from key free trade agreements with the EU, GCC, MENA, East Africa, and the USA, giving our clients a competitive advantage in cost and logistics. Most shipments are delivered within 5 to 12 days, port-to-port, ensuring efficient turnaround without compromising on quality control.

Today, KTC Hospitality supports over 50,000 hotel rooms annually and continues to grow by nurturing long-term relationships, prioritizing operational excellence, and remaining responsive to the evolving demands of global hospitality.
